

## Innovation, simplified.

Schur<sup>®</sup>Star is an innovative packaging system utilizing a packaging machine and pre-made bags. It sets the stage for increased package design options while simplifying your production with rapid changeovers, easy operation and high throughput.

### Differentiate

Upgrade and **differentiate your brand** image with superior graphics and creative bag design.

### Innovate

**Test new markets** or run **promotions** with an innovative packaging system that can be easily implemented in your facility.

### Optimize

Automate hand-packing lines and reduce plant downtime on short run SKUs to **improve throughput and efficiencies.**

SchurStar is raising the bar on innovative packaging. Our flexible, innovative packaging system helps you launch your products with smart solutions that reduce the cost of deep investments. The 169-year heritage of Schur Corporation brings a promise of proven expertise and superior service, giving SchurStar the resources to raise the bar on getting your product to market faster, and more efficiently – so you can deliver on your mission to grow your business.

### Flexibility

- Capable of running a wide variety of packaging sizes and materials to pack your current and future product portfolio
- Easy to integrate into your existing operations without a major investment
- A great way to do test markets and product promotions quickly and efficiently

### Reliability

- A proven technology with over 20 years and 500 installations helping our customers grow their bottom lines
- System is easy to use and maintain, with little proprietary aftermarket parts needed

### Productivity

- Machine runs of up to 80 bags per minute create higher packaging capacity
- Easy, 5-minute changeovers allow you to run all sizes and shapes of bags for multiple product lines on a single machine
- Bag design minimizes waste and scrap
- Leads to improved efficiency and contributes to increased overall plant uptime

### Source Reduction

- Bagged packaging reduces overall waste and is better for the environment
- Reduced packaging saves on shipping and storage to decrease costs
- Bags make more efficient use of the shelf space available for your products to increase revenue
